Describe A New Skill You Learned

What was the skill?

When and why, you learned it?

How you learned it?

Where can you learn it?

Why do you want to learn the skill?

Introduction:

I want to learn many skills, such as cooking skills, foreign language skills, driving skills and so on. Among them, driving skill which I think very difficult is one of the most desirable skills for me or at least as good as others.

When you learned it? and Why you learned it?

Actually, I had a great deal of fear on my mind towards driving. So that I could gain confidence, my father got me enrolled at a driving school called “Maa driving school”. Mr. Abdullah was my driving instructor who was quite confident, friendly, and soft-spoken.

How you learned it?

On my first day, he helped me to gain control over the steering. Though we were driving on the ground with no vehicle around, I was still scared and trembling, but my instructor motivated me to boost my confidence.

How you felt when you learned it?

Once I got on the highway, frankly speaking, every time a truck was coming from the other side, I was getting off the road in fear. This time my trainer got a little angry with me and said, you must keep the courage if you want to learn this skill.

Slowly and steadily, I got more and more comfortable with driving on the road in different conditions. I was feeling like that I have learnt to drive but then the most challenging part came which was to drive in the city center area with heavy traffic.

I got goosebumps (শিউরে ওঠা) to drive in this busy area. The car was hardly moving because of traffic, and my engine was going off again and again, but I kept the courage this time. Though I had a minor accident with an auto-rickshaw.

I learned a lot from my mistakes and the experience of Mr. Abdullah, and today, I can confidently drive a car, but it was not an easy skill to acquire for me.

Imaginary something if you have time:

As far as I could vividly remember, initially I didn't agree to admit this driving school due to my hectic job schedule and shortage of money. But my maternal uncle who lives in Canada inspired me to do this driving course as it will be helpful to get international license when I will go abroad. My uncle also gave me money for this case. So finally, I had decided to admit this school and learned driving.
